At Berks Encore, we are constantly seeking new ways to serve the aging community, their family and caregivers. With high expectations for accountability, positive community impact, and efficient use of public and private funds, we strive to be known as the “go to” resource for Berks County aging services.

If you have some extra time in retirement or just looking for something to do to help your community or meet new people, consider volunteering at Berks Encore!

Volunteers are needed at each of our community centers located in all corners of Berks County.
